

Kayla's Children Centre provides education, therapy, recreational and respite services for children with a wide variety of special needs within a Jewish cultural setting. The KCC school offers a unique program that integrates educational and therapeutic needs in a natural classroom setting.

In this role, you will be using ABA principles in a classroom setting to facilitate learning for children with ASD and other learning challenges. You will have the unique opportunity to work within an interdisciplinary team of teachers, BCBA's and therapists in providing a unique educational and therapeutic intervention.

This is the ideal job for someone who wants to make a big difference in the lives of children and their families while also upholding the highest standards for therapeutic excellence.

#### Role and Responsibilities:

- Conducting baseline assessments (eg: ABLLS, VBMAPP)
- Creating and submitting lesson plans
- Running large and small group circles and centres
- Supporting and communicating with parents
- Communicating with school and clinic staff
- Training and managing classroom support staff (EAs, PSWs, ITs)
- Overseeing programming of students: analysis of data, making data-driven program changes, writing and updating individualized plans
- Collaborate with interdisciplinary team and implement relevant therapy goals and strategies
- Responsible for curriculum, academic, and behavioural goals
- Responsible for creating, updating, and monitoring students' IEPs
- Attend training sessions, workshops, online courses, etc.
- Uphold Centre's policies and procedures (including ethical guidelines)

#### Skills and Qualifications:

- Three to five years of direct clinical experience in behaviour analysis or intensive behavioural intervention
- Strong knowledge and experience in: Natural Environment Teaching, Discrete Trial Teaching, ESDM, VBMAPP
- BCBA certification or pursuing BCBA certification is an asset
- Ability to work independently and take initiative while still being part of the team
- Professional demeanour and ability to maintain confidentiality
- Positive attitude, organized, and passion for learning
- Ability to lead and manage a team
